

SMART (Studyplan Management and Rating Tool)

Smart is a web application for students and lecturer.

Students can make their individual study plans, rate courses and look at course ratings and comments from fellow students, who already have taken specific courses.

Lecturer can see how many people visit their lectures and how the students have commented on their courses.

The screenshot shows the SMART web application homepage. At the top, there is a navigation bar with the SMART logo, a link for "FOR UNIVERSITIES", and "LOG IN" and "REGISTER" buttons. The main header area has a purple background with the text "Welcome to SMART" and "SMART is the online Studyplan Management And Rating Tool". Below this, a blue button says "START YOUR STUDYPLAN". The central content area is titled "What is SMART?" and features six icons with corresponding text: "EASY TO USE" (magnifying glass icon), "ORGANIZATION" (calendar icon), "FREE TO USE" (euro symbol icon), "GUIDANCE" (signpost icon), "FEEDBACK" (speech bubble icon), and "Registration" (document icon). Each icon is followed by a brief description of the feature. At the bottom, there is a copyright notice: "© 2020 sebis. All rights reserved."

IN2028 Business Analytics ★★★★★

ECTS: 5

Available in: WS

Area: Mandatory

Description:

After successful completion of the module students are familiarized with common methods of classification, numerical prediction and Clustering. They know the assumptions of these processes and understand their functioning, as well as their typical operational applications. Participants are able to analyze data sets with the programming language R and can interpret the results of these analyses.

Title

Interesting lecture

Average ★★★★★

Comment

Well structured content and assignments. But the exam was really hard.

Title Good to learn at home. Fair exam

Average ★★★★★

Comment The only downside to this course is that it takes place at the main campus. But I watched the recordings, which were great. Exam is like the tutorials and fair!

Lecturer ★★★★★
